ONE PEOPLE! ONE WORLD!!  
UNITED IN PROGRESS!!!

**CAMPAIGN TO SAVE  
AFRICAN WOMEN FROM  
PREGNANCY-RELATED  
DEATHS— (“SAVE”)**

**“Evil prevails if good men [and women] do nothing” (Burke E)**

Dear Friend and Compatriot,

Thank you for your heroic move to volunteer in the campaign to “Save African Women from Pregnancy-Related Deaths”. As we join together to add our VOICES to this campaign, we have become ONE PEOPLE! ONE WORLD!! UNITED IN PROGRESS!!!

Our common hope is that one day soon, we will all join together to celebrate a MOTHER AFRICA where women will not be neglected.

Africa is a continent of great people; such as the great Mandela, OBAMA and his African roots, and other great people of African heritage from all works of life. Many more great people would have been born if not for the 600,000 avoidable maternal deaths per year!

Our sympathy goes to all the families in the continent that have lost loved ones. May the gentle souls of all WOMEN who have died from pregnancy complications Rest in Perfect Peace. Amen!

We all must stand-up and say NEVER AGAIN should women die from avoidable pregnancy-related deaths in Africa. According to the World Health Organization (WHO), “Africa is the only region where there has been no improvement in maternal deaths for more than a decade. Indeed, the average maternal mortality ratio has increased from 870/100 000 live births in 1990, to 1000/100 000 live births in 2001.”

Flowing from the maxim that “evil prevails if good men [and women] do nothing”, we will like to call on all good men and women in Africa to rally together and TAKE effective ACTION!

As a comparison matrix, lets take for instance, the publicity and action taken by the international community on the SWINE FLU case where only a couple of hundreds died; we have also seen the action taken in cases of natural disasters, such as the earthquake in Haiti that killed over 150,000 people — about US \$6 Billion was raised to assist Haiti's recovery, and recently, hundreds of millions of dollars were spent in various Earth Hour events — Now, the question is, on a global scale, WHAT HAS BEEN DONE TO DRAW THE ATTENTION OF THE WORLD TO PREGNANCY-RELATED DEATHS?!!!!!-- estimated as over 600,000 deaths per year. . The short answer is "LITTLE"...are women and children not IMPORTANT???...How many more pregnancy-related deaths are needed for the governments to take a decisive action???

We applaud the efforts of men and women in the continent who are doing much to address the issues of maternal death. However, our vision is to see a M-A-S-S-I-V-E response of GOVERNMENTS, COMMUNITIES, ORGANIZATIONS and INDIVIDUALS jointly united and saying ENOUGH! is ENOUGH! to the avoidable DEATHS of WOMEN from pregnancy complications in AFRICA!

If we all can join together to take ACTION on this issue, then, we are on our way to achieving success.

To honour your efforts, after the rally, we will be delighted to feature your rally pictures and/or videos on the Sweet Mother International website Also, we would appreciate if you can permit us to create your profile, and post your articles or texts on the site.

Accept our best wishes and sincere appreciations; together we can make a difference.

LONG LIVE MOTHER AFRICA!

Yours for humanity,

Any nation seeking progress takes seriously the development of women virtues since mothers are the primary source of vision for a peaceful and prosperous society.*

JOHN NZE-BERTRAM , PRESIDENT, SWEET MOTHER INTERNATIONAL, MAY 5, 1990

*"It is the tasks connected with the home that are the fundamental tasks of humanity....If the mother does not make her contribution, there will either be no next generation, or a next generation that is worse than none at all."*

- Theodore Roosevelt, 26<sup>th</sup> president of the United States.

*"Study after study has shown that there is no effective development strategy in which women do not play a central role. When women are fully involved, the benefits can be seen immediately: families are healthier and better fed; their income, savings and reinvestment go up. And what is true of families is also true of communities and, in the long run, of whole countries."*

UN Secretary-General Kofi Annan, March 8, 2003.

## MEET AMANDA SCOTT

**Amanda Scott** is the International Project Officer of Sweet Mother International (SMI) and the World Youth Empowerment Association (WYEA) Incorporated. She is delighted to be a part of the campaign to “Save African Women from Pregnancy-Related Deaths”.

As a mother of three boys delivered by caesarean operations, Amanda has experienced a near death experience as a result of her pregnancy complications; albeit, the efficient obstetric care in her country, Australia, Amanda would have been dead if she were living in a rural African community.

Amanda’s heart goes to all women in Africa, particularly, to the expectant mothers who are unsure if they will have a safe delivery.

According to Amanda, “here in Australia, the government takes adequate care of women and children’s health. They even pay women up to \$5000 after birth. We have the Royal Flying Doctors who airlifts pregnant women experiencing complications from rural areas to an obstetrics hospital; the doctors among the team, can even administer appropriate induced labour procedures to assist a safe delivery.”

Amanda’s passion to assist maternal health in Africa is a motivating factor for her further studies in the field of Medical Science. She has had a successful career in Sales and Marketing and studies at the University of South Australia.

“I am dedicated to this cause to “Save African Women from Pregnancy-Related Deaths” says Amanda. With SMI’s ongoing programs in Africa, Amanda says “I am certain to visit someday soon to meet all the good people of Africa who are supporting this campaign.”
